CERTIFIED POOL OPERATOR

THE SEMINAR:

The CPO seminar is approved by the National Swimming Pool Foundation to certify pool operators in all states, and is taught by a certified CPO Instructor.

WHO SHOULD ATTEND:

Anyone involved in the management and/or operation of public swimming pool or spa facilities, including hotels, apartment communities, municipalities, health clubs, and community centers. No prerequisite education or experience is required to attend.

SEMINAR FORMAT:

The seminar consists of 14 to 16 hours of classroom training over the course of two days. Full attendance is required on both days. Attendees are required to bring only a calculator. Course book and handouts will be provided.

TESTING AND CERTIFICATION:

At the conclusion of the seminar, an open-book test will be administered. Attendees will have a maximum of two hours to complete the test. A minimum of 75% correct test answers is required to receive Certified Pool Operator (CPO) status. This certification remains valid for 5 years. All attendees who earn certification will also receive:

- Wall Certificate
- Wallet Card

ABOUT CPO CERTIFICATION:

A number of states currently require CPO certification for all pool operators, and many more are considering adding the requirement. Even in states where the requirement does not exist, CPO certification enables the pool operator to manage pools more safely, efficiently, and cost-effectively.
